# Project Demonstration 3

Team 9: Five for Fighting

# Agenda

1. User story
2. Demo + Q and A
   a. Front-End
   b. Linters
   c. Webhook
3. Next deliverable
4. Project Progress
5. Meeting outcome

# Roles

**Meeting Chair:** Caden
**Timer:** Yifei
**Note Taker:** Yuan Loong,yifei
**Demonstrator:** Josiah, Yuan Loong, Kenji

# User Story

## User Story 1

As an Administrator
I want to edit the access rights for operators and developers for different projects

### Accept Criteria

- User will be able to see all the manage access rights of operators and developers
- User will be able to edit access rights of different users for different projects

## User Story 2

As an Developer
I want to have automated CI processes to make my job easier

### Accept Criteria

- User will be able to utilize CI without any manual work required
- User will be able to ensure that the code deployed complies with code standards automatically
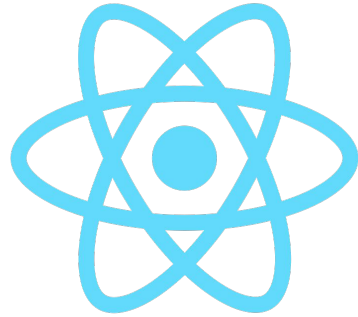

## User Story 3

As a User
I want to be notified by all the changes done in the project

### Accept Criteria

- User will be able to receive a notifications and view all changes made
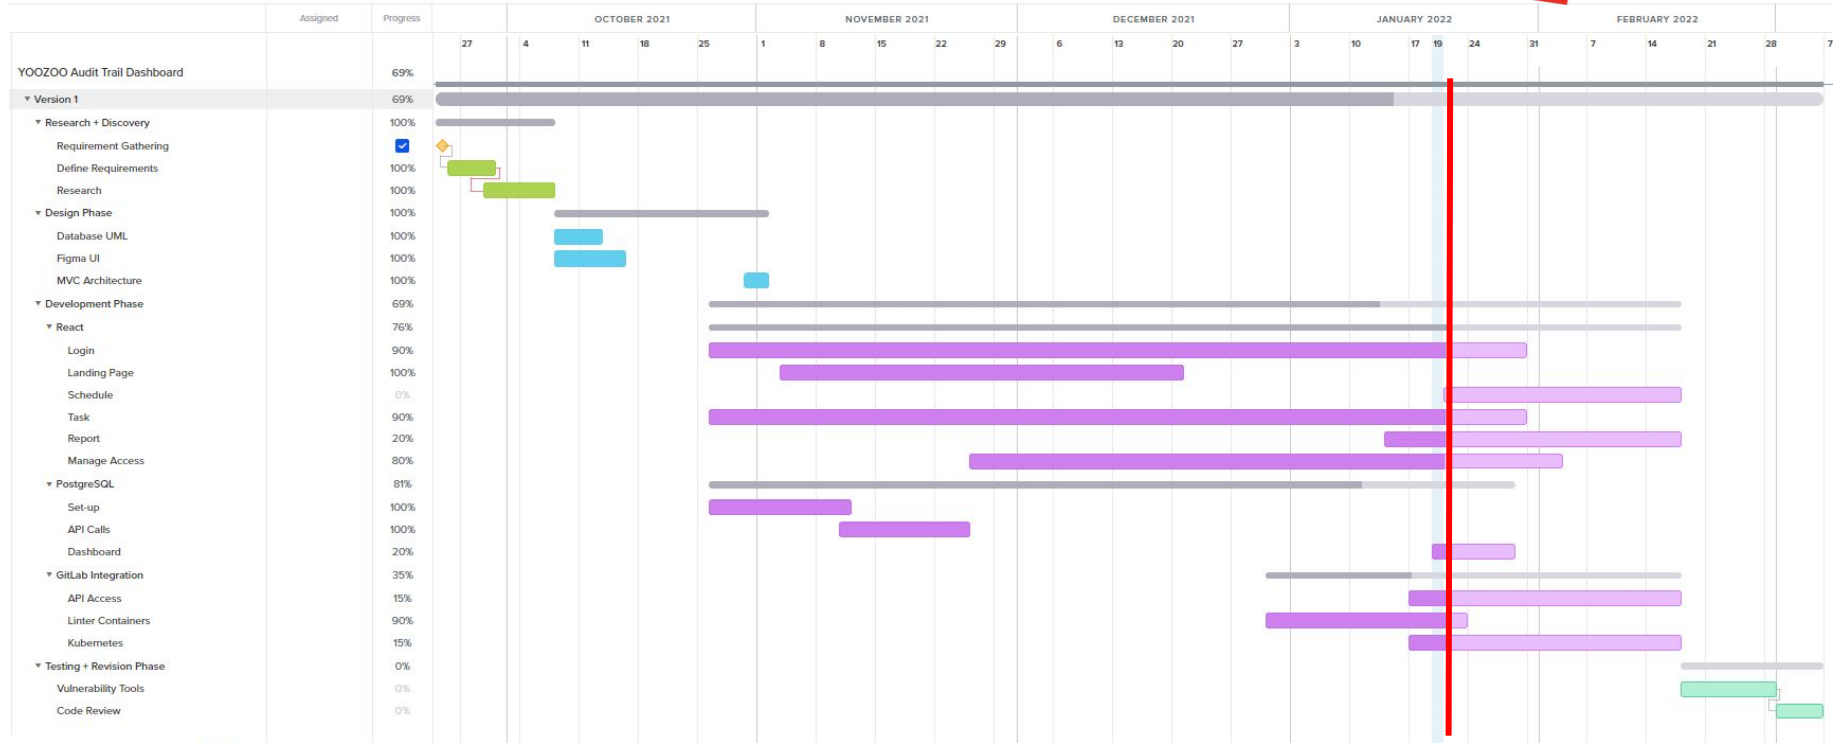

Demo +
Question & Answer
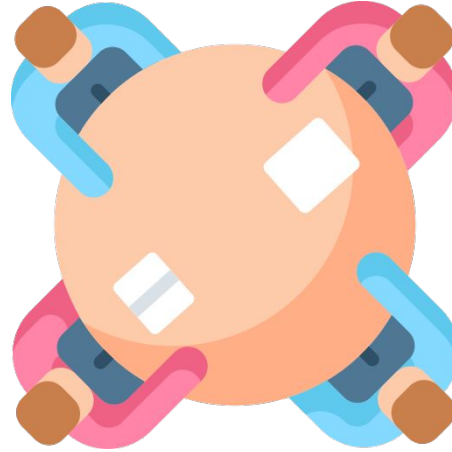

# Next Deliverables

1. Web application
   - Schedule module
   - Report module
     - New page to show results from code analysis and vulnerability tools

2. GitLab Integration
   - Vulnerability scanning tools
   - GitLab API integration to the backend
     - Store webhook data into database
       - Gitlab commit id, project name, username

# Project Progress

| | Assigned | Progress | OCTOBER 2021 | NOVEMBER 2021 | DECEMBER 2021 | JANUARY 2022 | FEBRUARY 2022 |
|---|---|---|---|---|---|---|---|
| YOOZOO Audit Trail Dashboard | | 69% | | | | | |
| ▼ Version 1 | | 69% | | | | | |
