Project Demonstration 4

Team 9: Five for Fighting

Agenda

1. Demonstration
2. Database Design
3. Project Progress
4. Next Deliverables
5. Meeting Outcome
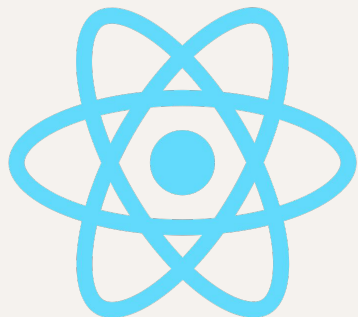

Roles

**Meeting Chair** - YiFei

Timer - Josiah

Note Taker - Yuan Loong

Demonstrator - Caden

Demo +
Question & Answer

Database Design

Add On   :

user_informaton
-     group_id (users grouping)
project
-     gitlab_id (gitlab Project Id)
task
-     parent_id (subtask link to task)
-   task_name (title of the task)
 commits
-     user_id (track user who commit)
-     status_CodeAnalysis (Status of Code Analysis)
-     status_Vulnerability (Status of Vulnerability)

Project Progress

	Assigned	Progress
YOOZOO Audit Trail Dashboard		82%
▼ Version 1		82%
▼ Research + Discovery		100%
Requirement Gathering		☑
Define Requirements		100%
Research		100%
▼ Design Phase		100%

Code Review		0%
Inspection and Testing		0%

Next Deliverables

**Sprint 11 (2 weeks)**
- Finalize Schedule, Report, Task Module
  - Schedule Module
    - Back End Logic
  - Task Module
    - Trigger webhook and email when assigning task to developer/operator
  - Report Module
- General UI/Bug Fix

Follow-up Meeting
- 2 - 3 weeks later to present current product
- Weekly Email on Progress

Sprint 12 (following 2 weeks)
- Refactor code
- Documentation
- Inspection & Testing

Meeting Outcome

Thank You!
